

Routes
into STEM

EDT

Choose the right Routes into STEM

Understand all your options in
Science, Technology, Engineering and
Maths with a **3-day taster course**

Are you in Year 10 (14-15 years old)? If yes,
then EDT's Routes into STEM taster course can
provide you with an invaluable experience
which will help you understand the different
routes available into a STEM career.

- Action-packed 3-day taster course including
a day in college, a day in university and a
day with a local employer
- Experience the different routes available and
compare university with an apprenticeship
- Understand the fantastic career opportunities
presented by STEM courses
- Have fun meeting friends and enjoying new experiences
- Free information toolkit to take away
