STEM Wordsearches MATHS

The language of maths

Sometimes it feels like maths has a language all of its own - there are lots of words and expressions specific to maths.

How many can you find?

Hidden in the grid opposite are 19 different maths expressions you might use in maths lessons - how quickly can you find them all?

The words read horizontally, vertically and diagonally.

Challenge yourself!

On the back of the sheet why not try to write down the meaning of each word, especially the ones that are new to you.
