Engineering Wordsearch

Engineering is varied!

There are six main types of engineer: chemical, civil, electrical, geotechnical, management and mechanical engineers.

But within these fields, there are hundreds and hundreds of other types so you're bound to find something you're interested in.

How many can you find?

Hidden in the grid opposite are fifteen different types of engineer - how quickly can you find them all?

The words read horizontally, vertically, diagonally and backwards.
