

STE(A)M Celebrities Wordsearch

Understanding the world around us

Throughout history there have been so many discoveries that have helped us to understand the world around us and make the world the place it is today.

Investigate the work of the figures in this wordsearch - what are they famous for? What did they discover?

How many can you find?

Hidden in the grid opposite are the surnames of eighteen famous names from the world of STE(A)M - how quickly can you find them all?

The words read horizontally, vertically, diagonally and backwards.

Challenge yourself!

Which famous scientists have we not included on our list? Come up with your own list of famous scientists.
